# Generac

Brand → Model family → kW size → Enclosure version / photo

## Generac New Generation · 28 kW

Shop-confirmed L x W x H: 46.4 x 30.7 x 26.3 in.

[Official product page](#)

## Generac Guardian · 26 kW

Shop-confirmed L x W x H: 48 x 29 x 25 in.

[Official product page](#)

## Generac Protector XG · 25 kW

Model: XG02525CUAX

Listed L x W x H: 66.6 x 32.6 x 40.7 in.

[Official product page](#)

## Generac Protector XG · 32 kW

Model: XG03245ANAX

Listed L x W x H: 83.4 x 34 x 45.2 in.

[Official product page](#)

Guardian and New Generation stay separate. XG 25 photo depicts a three-phase CA/MA unit; match the selected phase/version before using it for residential fitment. The photos show 28, 26, 25 and 32 kW units, not every available rating.

# Kohler / Rehlko

Brand → Model family → kW size → Enclosure version / photo

## Kohler 14RCA · 14 kW

Model: 14RCA

Listed L × W × H: 47 × 26.2 × 32.2 in.

[Official product page](#)

## Kohler 20RCA · 20 kW

Model: 20RCA

Listed L × W × H: 47 × 26.2 × 32.2 in.

[Official product page](#)

## Kohler 26RCA · 26 kW

Model: 26RCA

Listed L × W × H: 47 × 26.0 × 32.3 in.

[Official product page](#)

## Kohler 12RESV · 12 kW

Model: 12RESV

Listed L × W × H: 30.6 × 28 × 32.4 in.

[Official product page](#)

## Kohler 24RCLA · 24 kW

Model: 24RCLA

Listed L × W × H: 74 × 32.9 × 46 in.

[Official product page](#)

## Kohler 48RCLC · 48 kW

Model: 48RCLC

Listed L × W × H: 89.8 × 32.9 × 46.5 in.

[Official product page](#)

The manufacturer reuses the RCA image for 14RCA, 20RCA and 26RCA. Published dimensions vary slightly. RESV and RCL models have distinct references; other ratings still need exact-enclosure confirmation.

# Briggs & Stratton

Brand → Model family → kW size → Enclosure version / photo

## Briggs PowerProtect · 13 kW

Model: 040746

Listed L × W × H: 28.5 × 25.5 × 37.6 in.

[Official product page](#)

## Briggs PowerProtect · 26 kW

Model: 040806

Listed L × W × H: 46.5 × 26.8 × 28.4 in.

[Official product page](#)

## Briggs PowerProtect+ · 18 kW

Model: 040757

Listed L × W × H: 46 × 27 × 28 in.

[Official product page](#)

Compact 13 kW, PowerProtect 26 kW and PowerProtect+ 18 kW are separate references. Other ratings and DX versions are listed separately in the selector; these photos do not confirm their exact panel layout.

# Cummins

Brand → Model family → kW size → Enclosure version / photo

## Cummins QuietConnect RS13A

Model: RS13A

Exact bare-enclosure dimensions: confirm.

[Official product page](#)

## Cummins QuietConnect RS25

Model: RS25

Exact bare-enclosure dimensions: confirm.

[Official product page](#)

These photos show RS13A and RS25. RS17A/RS20A use a labeled family reference. Exact photos for the larger RS30–RS150 entries have not yet been added.

# Champion

Brand → Model family → kW size → Enclosure version / photo

## Champion aXis · 14 kW

Model: 100515

Exact bare-enclosure dimensions: confirm.

[Official product page](#)

## Champion aXis · 22 kW

Model: 100304

Exact bare-enclosure dimensions: confirm.

[Official product page](#)

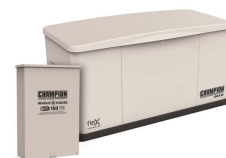

## Champion fleX · 22 kW

Model: 201202

Exact bare-enclosure dimensions: confirm.

[Official product page](#)

## Champion fleX · 26 kW

Model: 201244

Exact bare-enclosure dimensions: confirm.

[Official product page](#)

## Champion Select Circuit · 8.5 kW

Model: 100199

Exact bare-enclosure dimensions: confirm.

[Official product page](#)

Numbers above identify the generator itself. Several official bundle images also show a transfer switch; exclude it from enclosure matching. The fleX 26 image shows a different transfer-switch bundle. Listed bundle measurements are not approved bare-enclosure dimensions.
